fedoraproject.org

This CD contains a complete, bootable desktop environment full of free & open source design tools. To use it, you'll need a computer that supports booting from a CD.

Intel-based Mac Users:

We recommend that you use this CD to create a virtual machine in software such as Parallels or VMware. You may also try it directly on your Mac by inserting the CD, holding down 'C' on your keyboard, and rebooting the computer as you continue to hold down 'C.'

Intel-based PC Users:

Insert the disc, reboot your computer, and follow the prompts for booting from a CD.
