Installation DVD

For Intel-compatible, 32 and 64-bit computers

Please ensure that your computer is configured to boot from the DVD drive, insert the disc into the DVD drive, and restart your computer.

The installer will quickly guide you through the installation process, asking a few questions about you and your computer as you go.

For futher assistance, visit http://help.fedoraproject.org

MINIMUM REQUIREMENTS: 400 MHz 32-bit Intel-compatible processor with 768 MB RAM. Installation of the complete package set can occupy over 9 GB of hard drive space.
